Subject: The Microsoft settlement is a joke.

I am shocked that Microsoft can be caught breaking the law and get caught lying during the trial, convicted, the conviction upheld, and they get no punishment.

This settlement is nearly identical to their 1995 agreement, which allowed them to take over the browser market.

I am tired of one company having so much power that they are essentially untouchable. They can illegally put other companies out of business using their unfairly aquired monopolies.

Guess it just takes a few friends in the white house and a little bit of money in the right places.

If I ever get the opportunity to vote against anyone involved with this settlement, I will be sure and do so.

What a joke. You should all be ashamed of yourselves.
